Tobilola MOTUNRAYO Adebayo

AI Product Builder | UI/UX Designer & Illustrator | Design Engineer
| Vibe Coder | Crafting intuitive, user-centered digital experiences
through systems thinking, design craft & AI

Lagos Mainland, Lagos State, Nigeria

Summary

I began my career in finance, managing operations and driving growth through data-driven decisions. Over time, my passion for innovation led me into product design, where I continue to focus on creating impact and delivering value.

Transitioning into product design, I leveraged my analytical expertise and strategic mindset to create products that are both user-centric and aligned with business objectives. My work has consistently focused on enhancing user experience and visual appeal, resulting in products that stand out in competitive markets. I have a proven track record of leading design projects from concept to completion, utilizing design thinking, wireframing, competitive analysis, user research, and storyboarding to deliver innovative solutions.

One of my key achievements in product design was leading the redesign of a client's digital platform, which improved user engagement and increased conversion rates. My approach to design is rooted in a deep understanding of user needs and market demands, ensuring that every product meets and exceeds expectations.

I am actively seeking opportunities to bring my unique blend of finance, and product design expertise to organizations looking to innovate and achieve sustainable growth. My diverse background enables me to offer a holistic approach to solving business problems, making me a valuable asset to any team.

If you are looking for a professional who can drive strategic initiatives, deliver innovative design solutions, and provide data-driven insights, I would be delighted to connect.

Experience

Haivenng

Product Designer

January 2025 - Present (1 year 6 months)

Nigeria

As a Product Designer at Haiven, I lead the end-to-end design of the platform, ensuring an intuitive and seamless user experience for residents. I initially built Haiven while working at Void Studio and now continue refining its interface, collaborating with developers, and enhancing usability. My role focuses on creating visually appealing and user-centric designs that align with the product's vision and business goals.

Void Studio

Product Designer

December 2023 - December 2024 (1 year 1 month)

As a Product designer at Void Studio, I create visually appealing, user-friendly interfaces for our digital products. Collaborating with developers and product managers, I design intuitive and engaging interfaces that enhance user experiences.

Zero To Tech

User Interface Designer

November 2022 - December 2023 (1 year 2 months)

United Kingdom

Conduct thorough user research to understand the needs, goals, and pain points of students. Gather insights through surveys, interviews, and usability testing to inform the design process and ensure the dashboard meets students' requirements.

Create wireframes and interactive prototypes using industry-standard design tools such as Figma. Translate user requirements and research findings into intuitive and visually engaging user interfaces that optimize the student experience.

Apply your skills in visual design to create an aesthetically pleasing and consistent user interface. Utilize typography, color palettes, iconography, and other visual elements to create an engaging and cohesive design language that aligns with the brand and enhances usability.

Work closely with cross-functional teams, including developers, product managers, and stakeholders, to understand technical constraints and feasibility. Collaborate effectively to iterate and refine designs based on feedback and user testing, ensuring continuous improvement of the student dashboard.

Kairoi

UX Designer

June 2023 - September 2023 (4 months)

Lagos, Nigeria

- Facilitate the client's product vision by researching, conceiving, sketching, prototyping, and user-testing experience for digital products.
- Dashboard Design. Prototyping. Dashboard design.
- Collaborate with other team members and stakeholders.
- Prepare and present High-fidelity mockup designs to internal and key stakeholders.
- Conduct Layout adjustments based on user feedback.

SCHULL TECHNOLOGIES (GROUP)

Product Designer

March 2022 - June 2023 (1 year 4 months)

Lagos, Nigeria

- * Conducting user research to understand the needs, motivations, and behaviors of your target audience
- * Using design thinking to come up with creative solutions to meet user needs
- * Creating prototypes to test and refine designs
- * Working with developers to bring designs to life
- * Collaborating with cross-functional teams, such as marketing and engineering, to ensure that your designs align with business goals
- * Continuously iterate designs to improve user satisfaction and product performance.
- * Staying up-to-date with the latest design trends and technologies to inform my work.

XECUREIS
